

Active Arrayable Column Speaker

Description:

KQ-6 is an arrayable active column speaker set newly launched by Power And Grace. The speaker had been refined until it delivers a constant sound coverage in a wide frequency range. Special horn design also allows two KQ-6 TOP column speakers stacking up for stronger sound reproduction. KQ-6 SUB, the subwoofer, adopts compressed cabinet design with 2pcs 15" long-throw woofers. It produces high power bass for the entire sound system. A high performance 2-channel amplifier with built-in DSP processor houses at the back of the subwoofer. Stunning cabinet design provides unprecedented mounting, flying, arraying and permanent installation flexibly making it suitable for either installation or touring live sound application. Applications: rental, wedding ceremony, touring sound, function halls, indoor sports center, medium and small sized sound reinforcement.
