

Portable sound system with wheel case

CHARACTERISTIC

The PA Portable sound system is a versatile, high-performance, full-range speaker & subwoofer system for mobile sound reinforcement needs.

Passive Built-in 2 way design, with 2 Neutrik NL4 plug, Neodymium magnet/ Ferrite magnet drivers optional, birch 18mm cabinet, anti-scratch textured paint coating, integrated in four wheels case to enable easy transportation, make it professional and widely used in occasions like touring show, shopping mall, hall, meeting room, small stage etc. Definitely a good choice for touring sound reinforcement needs.

TECHNIQUE INDEX

Model	PA915+
Units	LF: 1x15", 75mm voice core, Neodymium driver HF: 2x1.75", Neodymium driver
Frequency Response	±3dB 50-17K Hz
Sensitivity(1m/1W)	97dB
Rated/Continuous/Peak power	900W/1800W/3600W
Maximum SPL	127db/130dB/133dB
H x V	90°x60°
Impedance	8Ω
Connector	NL4x2+1L1
Size	430x430x726mm
Weight	32KG
